**DETAILED ACTION**

***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with **Joseph T. Grunkemeyer** on 4/29/05.

2. The application has been amended as follows:

Claim 22 has been deleted.

***Allowable Subject Matter***

3. Claims 1-10,15-21 and 24-30 are allowed.

4. As set forth in the previous Office Action, the following is a statement of reasons for the indication of allowable

Art Unit: 2183

subject matter: Akkary et al., the closest reference, and the other prior art do not teach or fairly suggest:

decrementing the counter if said examining indicates that the second instruction has already been executed (in claim 15);

incrementing a counter associated with the second thread if said determining indicates that execution of a second instruction depends on the execution of the first instruction (in claims 17, and 19); and

the instruction control unit configured to disallow execution of the first instruction if a dependency counter value is less than a threshold value (in claim 24, and claims 1 and 7 recite the corresponding limitations). Further the combination of the above limitations with all of the other limitations in the respective independent claims is not obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
